

## In just 12 months:

- Graduate as a highly qualified Magnetic Resonance Imaging (MRI) Technologist
- Admission requirements are a High School Diploma or GED and at least 18 years of age
- No Radiology background or College prerequisites required
- Get ARMRT national certification
- Work in a Private, Hospital or Mobile MRI Facility anywhere.
- Classes begin May 2009
- Financing and Financial Assistance Options available

Approved by the American Registry of Magnetic Resonance Imaging Technologists (ARMRT)

NOTE: MRI School of Minnesota is licensed as a private career school with the Minnesota Office of Higher Education pursuant to Minnesota Statutes 141.21 to 141.32. Licensure is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions

## MRI Technologist Certificate Program

MRI School of Minnesota is the first school in Minnesota to offer a one-year (12-month) Magnetic Resonance Imaging (MRI) Technologist Certificate Program to those with at least a High School Diploma, GED or equivalent. Our program also welcomes X-ray (Radiologic) technologists and those who have completed other post-secondary courses or degrees.

With classes beginning May 2009, the MRI Technologist Certificate Program has a didactic (theory) component consisting of 400 hours of coursework, and a clinical component consisting of 1000 hours of practical training at designated state-of-the-art MRI clinical sites in the Twin Cities area under the supervision of a certified MRI technologist. Class sizes range from 10 to 15 students in the classroom, and 3 to 5 students per clinical site.

Our 12-month Certificate Program is open to students who demonstrate academic seriousness and an inclination towards the health sciences. Upon successful completion of our Program, students will receive our School certificate, and will be eligible to sit for the ARMRT national certification examination.

Our 12-month Certificate Program is open to students who demonstrate academic seriousness and an inclination towards the health sciences. Upon successful completion of our Program, students will receive our School certificate, and will be eligible to sit for the ARMRT national certification examination.

## About MRI

Magnetic resonance imaging (MRI) is one of the most sophisticated and sensitive medical diagnostic imaging technologies available to-date. Using a strong magnetic field and radio waves rather than harmful (ionizing) X-ray or gamma radiation, MRI generates detailed images of the inside of the body which clearly delineate different organs and tissues. A qualified MRI technologist knows how to manipulate different contrast parameters on the MRI machine to optimize images and make pathology more visible for the Radiologist to make an accurate diagnosis. Many injuries, tumors, infections and degenerative conditions can be diagnosed safely and painlessly by MRI, oftentimes preventing or improving the success of otherwise risky surgeries, procedures or treatments.

## Program Costs

The cost of the entire 12-month MRI Technologist Certificate Program is \$13,500. This includes \$13,450 tuition charges (including practical training lab fees) and the \$50 registration/application fee. MRI School of Minnesota offers the following payment options (which includes 50% and 25% downpayment financing options) for students as well as funding through financial aid and other loan programs.

## Financing Options

Students have the option of the following payment methods for tuition (at no interest):

Option 1: Payment of \$13,450 in full (see Career Training Loans below for financial assistance options) by the first day of class.

Option 2: 50% down (\$6,725) by first day of class, and 11 monthly payments of \$611.36.

Option 3: 25% down (\$3362.50) by first day of class, and 11 monthly payments of \$917.05.

## Financial Aid & Other Assistance

Please call us to find out more about state/federal financial aid and other career training loan options.

## Apply Today

If you have earned a High School Diploma or GED and are interested in sciences and the health care field, then we encourage you to fill out the attached form and mail it to us and/or call us at (651) 702-0674 for more information about our MRI Technologist Certificate Program. In order to secure a seat in the Program, we encourage you to apply early.

## Request for More Information

Are you at least 18 years old and have a High-School Diploma or GED?    YES    NO

### Education Completed:

- High School or GED
- Post-Secondary/College Studies
- Post-Graduate Studies

### High School

#### Courses Completed:

- Biology
- Math (Algebra/Tri)
- Chemistry
- Physics

### Post-Secondary

#### Courses Completed:

- Medical Terminology
- Anatomy & Physiology
- College Math
- College Physics

### Your Age Group:

- Under 18
- 18-29
- 30-49
- 50+

Which of the following class periods can you attend?  
(Check/circle all that apply) :

- Weekends 9am-Noon/ 1pm-4pm/ 5pm-8pm
- Weekdays 9am-Noon
- Weekdays 1pm-4pm
- Other: \_\_\_\_\_
- Weekdays 6pm-9pm
